

Help us eradicate non-native plant species on the Isle of Wight!

Plant Positive aims to tackle the non-native invasive plants that are threatening parts of the Island's ecosystem. We need your help establishing where these plants are. If you find any non-native plant species you can identify using the [Non-Native Invasive Plant ID sheets](#) on our website, please complete this form and send it to:

Plant Positive, Natural Enterprise, Northwood House, Ward Avenue, Cowes, PO31 8AZ, or email carol.flux@naturalenterprise.co.uk

Name

E-mail

Telephone number

Species name

Location name

Location grid reference or postcode

Date seen

Number of plants seen

Type of habitat the plant was growing in

Name & contact details of the landowner (if known)

.....

Please attach a photo of the plant/s if possible.

The information you provide will also be submitted to the Local Records Centre to help build up an accurate picture of non-native invasive plants across the Island.

Thank you!
